

SECURETRUST CYBER

Cloud Access Security Broker (CASB)

See every cloud app. Govern every action.

Discover sanctioned and unsanctioned cloud apps, score their risk with ML, and enforce least-privilege controls across users, devices and services.

— The challenge: Shadow IT is invisible risk

Users adopt cloud apps without IT, and you cannot govern what you cannot see.

Shadow IT

Unsanctioned apps and GenAI services operate outside your control.

Unknown risk

Without scoring, you cannot tell which apps are a liability.

Over-privileged access

Users hold far more access than they need across SaaS.

Visibility, risk, control

- Shadow IT discovery
- Shadow AI governance
- Compliance insights
- Tenant restriction
- Usage and action tracking
- Automated data collection
- Prioritized remediation
- Action-level control

Part of one platform. Cloud Access Security Broker runs alongside Firewall-as-a-Service, Intrusion Prevention System, DNS Security, Secure Web Gateway, Universal Zero Trust Network Access, Data Loss Prevention, AI Security for End Users, SIEM Platform and Managed Patch Management, with one console and one policy engine.

— Key capabilities

Discover cloud apps, score their risk and govern every action by user, app and context.

Cloud application visibility

Monitor traffic and report sanctioned and unsanctioned apps in a detailed, filterable dashboard.

[Shadow IT discovery](#)[Usage and action tracking](#)[Shadow AI governance](#)

ML-based risk scoring

Each app gets a calculated risk score with compliance and security insights.

[Automated data collection](#)[Compliance insights](#)[Prioritized remediation](#)

Tenant restriction & least privilege

Allow only enterprise-sanctioned tenants, and block apps lacking MFA, SSO or compliance.

— Common questions

How is CASB different from SWG?

SWG filters web traffic; CASB governs cloud apps: discover, score risk and control actions inside SaaS.

Does it cover Shadow AI?

Yes. It discovers GenAI services, assesses their risk and enforces granular access controls.

Talk to an Expert
