

SECURETRUST CYBER

Data Loss Prevention (DLP)

Protect sensitive data. Everywhere it goes.

Classify sensitive data and enforce consistent protection across users, locations, private apps, SaaS, email and generative AI.

— The challenge: Data moves faster than policy

Sensitive data leaves through more channels than ever, from SaaS uploads to GenAI prompts.

SaaS and cloud leaks

Users upload and share sensitive data across ungoverned apps.

GenAI exposure

Prompts and uploads to AI tools leak confidential data.

Inconsistent rules

Different tools enforce different policies, or none at all.

Classify once, enforce everywhere

- 350+ built-in detectors
- MIP labels and regex
- OCR for images and docs
- GenAI traffic scanning
- Custom classification rules
- Exact Data Match
- Private app and SaaS protection
- Inline and API controls

Part of one platform. Data Loss Prevention runs alongside Firewall-as-a-Service, Intrusion Prevention System, DNS Security, Secure Web Gateway, Universal Zero Trust Network Access, Cloud Access Security Broker, AI Security for End Users, SIEM Platform and Managed Patch Management, with one console and one policy engine.

— Key capabilities

Built-in and custom detectors identify sensitive data, and one policy follows it across every channel.

350+ predefined data types

Detect common sensitive data, PII and compliance content out of the box.

350+ built-in detectors

Custom classification rules

MIP labels and regex

Exact Data Match & OCR

Detect precise records and sensitive content in supported images and documents.

Exact Data Match

OCR for images and docs

Private app and SaaS protection

Generative AI safeguards

Scan ChatGPT and other GenAI traffic inline and govern upload and download activity.

GenAI traffic scanning

Inline and API controls

Centralized DLP visibility

— Common questions

What channels does DLP cover?

Private apps, SaaS, email, web and generative AI, inspected inline and out-of-band.

Can it detect data inside images?

Yes, via OCR on supported images and documents.
